

This Repertory is a product of the research on the “Mindszenty Files” known as well as “Cardinal Files” or “His Eminence Files”, conserved originally in the American Legation in Budapest, Hungary (from 1966 Embassy) during the years 1956–1971. A scholarly interest is supposed, it can be useful for all those, who want to control the large material and to consult it under various aspects. In this Repertory is offered a list in chronological order of all documents of any importance, conserved in the six boxes as part of the Budapest Post (or Lot) Files.

*

Repertóriumunk a budapesti amerikai követség (1966 ősztől nagykövetség) Mindszenty-anyaga hat levéltári dobozának leírását tartalmazza előbb az őrzési egységek sorrendjében, majd időrendben, feltüntetve azt is, hogy mely dokumentumokból találtunk más példányokat az amerikai levéltárak egyes fondjaiban, illetve mely dokumentumok jelentek meg idáig eddigi publikációinkban. A repertórium tartalmazza az újságkivágások listáját, az eddig vizsgált dokumentumok statisztikáját, továbbá a leírásban említett személyek mutatóját, a Msgr. Sabo File tartalmát, végezetül eddigi publikációink listáját.

A SS 2. és 3/1. kötetében még a régi felvételeket használtuk, ezért a szögletes zárójelben azokat is feltüntetjük, utána egyenlőségjel, majd az új felvétel száma. A 3/2. kötetben, 1967–1970 közötti évekre, már csak az általunk használt új felvételek számait közöljük, de ha korábban megjelent nyomtatásban, akkor feltüntetjük a régiek számát is. Így 1971-re ismét közöljük a régi felvételek számát, lévén, hogy az év dokumentumai megjelentek a régi felvételek alapján.

Néhány esetben előfordul, hogy

- régi felvétel hiányzik: [-/0572],
- új felvétel hiányzik: [0546/-].

INTRODUCTION

This Repertory is a product of my research on the “Mindszenty Files” known as well as “Cardinal Files” or “His Eminence Files”, conserved originally in the American Legation in Budapest, Hungary (from 1966 Embassy – “BP”) during the years 1956–1971. A scholarly interest is supposed, it can be perhaps useful for all those, who want to control the large material, to be consulted again and again under various aspects. Until now our interest was focused on the mind of the Cardinal, as Author of about 200 letters to the American Presidents and Secretaries of State, and also to the Popes and the Cardinal Secretaries of State in the Vatican. Almost all pieces of this correspondence were transmitted by diplomatic channels – pouches or telegrams – from Budapest to the Department of State in Washington, which distributed the messages and letters to the Vatican again by diplomatic channels via the Apostolic Delegate in Washington.

There were found several other copies in the Balkan Affairs / Eastern European Office (“EE”), as part of the Bureau of European Affairs (“EUR”), and again, in the so called Central Foreign Policy Files (“CF” or “CFB”) of the Department of State. This was mostly the case, as the correspondence was transmitted to the White House, or to the Office of the Secretary of State, but there is a lot of cases, as the letters of the Cardinal were answered on lower levels, so we have all these documents in these files.

Similarly, if there was any answer, the way was on the opposite side: Vatican Secretary of State - Apostolic Delegate’s Office in Washington D.C. - Department of State on various levels and - American Legation (Embassy) in Budapest. Or, if there were some written or oral answer from the White House: this was given on diplomatic channels again by the Department of State in Washington.

In this Repertory we wanted to give a list in chronological order of all documents of any importance, conserved in the six boxes as part of the Budapest Post (or Lot) Files, other documents were conserved in different other Budapest Mission Files, here reported only if published by the respective FRUS-volume, or by scholars as Alberto Melloni and László Borhi. Different copies of the EE, CF funds and of Presidential Archives are joined to this list, to show, that the same letter is conserved in different files, and mostly were found originals.

This Repertory doesn't want to give the whole list of documents and copies consulted by us and conserved in different files, if there was no copy in the Budapest Mission Files. This kind of information can be published in a later publication, if there is any interest. The Editor has several listings and the documents are typed in text format.

The numbers in parenthesis are orientative, the numeration was given by digital cameras, and so the digital versions are to be found easier in the computer. This numeration can give an aid to reconstruct the original position of the documents in the NARA Boxes.

Amerikai források Mindszenty bíboros követségi tartózkodására

1956. november 4. – 1971. szeptember 28.

A Mindszenty bíboros követségi tartózkodását dokumentáló amerikai források kutathatók, de a kutatás során újabb és újabb falakba lehet ütközni: a kutathatás problémája egyelőre még aktuális. Mivel az igazi kutatáshoz szükséges az eredeti dokumentumok megtekintése, ezen a helyen csak ízelítőt tudunk adni abból, ami a kutatót az amerikai levéltárban fogadja.

Eddigi felismeréseink során az amerikai források nagymértékben bővítik ismereteinket, egyrészt mert rögzítik az amerikai diplomaták álláspontjának alakulását, másrészt mert feltárják Mindszenty bíboros gondolkodásának egyes állomásait is, hiszen itt megtalálhatók levelezésének különböző példányai, így lehetségessé válik azok szövegének rekonstrukciója. Az általunk elsőként tanulmányozott fond a budapesti követség hat dobozban őrzött vonatkozó anyaga, ez vezetett el a washingtoni külügyminisztérium – State Department – budapesti követséggel kapcsolatot tartó hivatalának fondjához, amely a Magyar Referatúra (Hungarian Desk), az EUR/ EE, az európai – kelet-európai fond része. Az Amerikai Nemzeti Levéltár 2. sz. épületében őrzött anyagának helyszíni kutatása, fotózása során pedig eligazítást kaptunk a levéltárosoktól a további, a központi hivatalok fondjához (Central Foreign Policy Files, röviden: Central Files).

A Central Files-ban találkoztunk először minden iratesomóra kiterjedő jelzetelési rendszerrel, ezt megelőzően, az alacsonyabb hierarchián szereplő, minket érintő két fond esetében ezzel nem találkoztunk. S mivel a kutatás során a haladási irány fordított volt, ezért jelzeteink megválasztása is fordított sorrendben alakult ki. A Central Files jelzetelési rendszerének ismeretében azt látjuk, hogy az EE-Files és a budapesti követségi anyag jelzetelésére kialakított rendszer nem vált fölöslegessé, sőt, bizonyos modellt is nyújtott.

A helyzetet bonyolítja, hogy a State Department előbb kialakította saját sorozatainak jelzet-rendszerét, és ennek alapján adja meg a „Foreign Relations of the United States” (FRUS) sorozat kötetében a levéltári jelzetet, majd, miután az anyag (folyamatosan?) átkerült az USA Nemzeti Levéltárába, ott újabb rendszerezésen ment keresztül. Ráadásul a NARA 1963 februárjától újabb rendszert alakított ki, ezért a Central Files esetében kétféle jelzetelési rendszerrel is meg kellett ismerkednünk. A Central Files esetében találkoztunk először azzal a jelenséggel, hogy előbb ugyanazon a lapon, majd külön csatolt lapon rögzíti a számozott titkos példányok elosztását a State Departmenten belül, s ezek elemzése során eljuthatunk a többi hivatal levéltári fondjaihoz, ahol esetleg újabb felismerések várhatók. Mivel bennünket elsősorban Mindszenty bíboros személyiségének megismerése vonzott, úgy gondoltuk, hogy megelégedhetünk az eddig megtalált anyaggal, amelynek mennyisége így is hatalmas.

A három általunk vizsgált fond, kutatásunk időrendjében

BP Mission/Legation/Embassy Files: Hat doboz ismeretes, ez az 1–6. sz. dobozok tartalma, amelynek mintegy 4/5 része volt ismeretes 2010 előtt, újabban a teljes anyag rendelkezésre áll. A jelzetek típusa: BPB0101[1234]

A szögletes zárójelben található négyjegyű szám a digitális felvétel száma, amelyet a kamera automatikusan is meg tud adni. Az eredeti levéltári fondot nem ismerve, csak az arról készült digitális felvételeket kézhezkapva, vezettük be ezt a rendszert. A négyjegyű szám megtartása megkönnyítette a felvételek komputeres visszakeresését. Ettől eltér az 1958–1959. év anyagának jórésze, amelyet a kamerát kezelő személy utólag megváltoztatott. – A 2010. februárjában fényképezett anyag mintegy 7300 felvételt tartalmaz.

Department of State: Eastern European (EE, RG 59): 12 doboz ismeretes, ezek közül főleg a 9–12. dobozok tartalmazzák a Mindszentyre vonatkozó dokumentumokat, amelyek őrzési egységekre (ő. e.) vannak felosztva. A jelzetek típusa: EEB0901[123]

A szögletes zárójelben található háromjegyű szám a digitális felvétel száma, amelyet a kamera automatikusan is meg tud adni, mivel itt összességében mintegy 2100–2200 dokumentumot találtunk (a gyakorlatban ennél kb. egynegyeddel több), ezek visszakeresését megkönnyítette a háromjegyű szám megtartása.

Mindkét esetben elmondhatjuk, hogy ez a jelzetelés önkényes és a jövőben készülő felvételek eltérő számozást fognak kapni, ezért tettük szögletes zárójelbe. Viszont, ha ismeretes a digitális felvételek őrzési helye, vagy megvan a digitális másolat, akkor lényegesen megkönnyítheti a feldolgozást, amely ilyen nagy mennyiségű anyag esetében rendkívül fontos.

Department of State: Central Foreign Policy Files (RG 59): 18 doboz ismeretes, ezek közül kiemelkednek a SOC 12–1 HUNG jelzetűek. A Central Files iratain található jelzet kétféle katalogizálási rendszer alapján értelmezendő: Az 1963. januárig érvényben lévő katalogizálási rendszer, a Central Foreign Policy Files 864.413 típusú decimális jelzetek aljelzete: 11-656, feloldása egy dátum: november 6, 1956. A NARA honlapjáról letölthető kézikönyv alapján a 864-ből a 8-as osztály „Internal Economic, Industrial and Social Affairs,” a 64 „Hungary”, a 413 „Religion, Church” jelzete. A jelzetben megadott dátum nem mindig azonos a dokumentum dátumával, amennyiben az része egy iratcsomónak. Ilyenkor az iratcsomó legfontosabb dokumentumának dátuma számított, a levéltáros aszerint számozta be. Az iratcsomók nem minden lapján szerepel ez a jelzet, csak az első oldalon. Az 1963. februártól kezdődő Subject Numeric Files rendszer, a „SOC” a Society-re utal, a 12–1-es szám a „Churches, Sects”-re. Kiegészítve a dátummal, a jelzet teljes.

1956. nov. 4. – 1963. jan. 31: 864.413/hónap-nap és év (pl. 11-456)
1963. febr. 1-től: SOC 12-1 HUNG (esetleg még: hónap-nap és év),
POL HUNG-US,
POL US-HUNG,
POL US-VAT, stb. típusú jelzeteket ismertünk meg.

A jelzetek mellett fontos feltüntetni, hogy milyen típusú dokumentumról van szó. Három fő típusa van a dokumentumoknak: Levél – Letter (Ltr), Telex (sürgöny) – Despatch) illetve Távirat – Telegram (Tel), végezetül: Memorandum (Memo), emlékeztető.

A táviratoknál fontos körülmény, hogy az amerikai külügyi szolgálat zárt rendszerében a külképviseltek a központon keresztül érintkeztek egymással, a központ rövidítve Secstate, SecState, SECSTATE, azaz: Secretary of State, feltüntetve Washington rövidítését is, a minket érdeklő külképviseltek közül kiemelkedik a budapesti, a bécsi és a római amerikai nagykövetség, de időnként előfordulnak más nagykövetségek, külképviseltek is. Mindez azért is fontos, mert az általunk vizsgált anyag Budapest-centrikus, idáig nem vizsgáltuk meg sem a bécsi, sem a római nagykövetségek levéltári anyagát, bár a levéltárosok előzékenységből egy-egy gyűjteményt tanulmányozhatunk a budapesti követség hatodik dobozában.

A történész számára fontos körülmény, hogy a római amerikai nagykövetség időnként – helyzeténél fogva – kiemelkedő szerepet kapott, így 1958. októberében, XII. Pius pápa halálát követően, amikor a tét az volt, hogy Mindszenty bíboros elszándékozik-e utazni Rómába a pápaválasztásra, illetve hogy a budapesti külügyminisztérium engedélyezi-e kiutazását vagy sem. Ugyanígy 1971. tavaszán a római képviseltek – helyzeténél fogva – szintén oroszlanrészt vállalt a kiutazás előkészítésében. Mindkét esetben a vatikáni hatóságok képviselőivel tárgyaltak (konklávé esetében a camerlengo bíboros hivatalával, 1971-ben a Vatikáni Államtitkársággal).

A táviratok esetében a dátum egy-egy napnyi eltérést tartalmazhat, a feladás és a vétel dátuma – az időeltolódás miatt, ami általában hat óra – eltérhet, illetve az irattükrozési példányok dátuma eltérhet.

Az általunk felkutatott iratok csoportjai, mennyisége:

BP - hat doboz, kb. 5456 oldal - digitális másolatok a Magyarországi Mindszenty Alapítvány Levéltárában (Mindszenty Archívum, MA, MAL, MMAL),
- hat doboz, kb. 7800 oldal, a digitális felvételek 2009–2010-ben készültek.

EE - főleg négy doboz, 2100 oldal, a digitális felvételek 2009-ben készültek.

CF - 18 doboz, 4400 irat, a digitális felvételek 2010-ben készültek.
